

FIDELITY CARES DAY

OVERVIEW

Fidelity is passionate about making a difference in everything we do, from helping our customers invest for the future to improving our communities where we work and live. On **Wednesday, May 3**, this commitment will be powerfully demonstrated as more than 7,000 colleagues join forces and participate in Fidelity Cares Day, an annual education-focused day of service. Volunteers will support hundreds of community partners and schools in all of our U.S. and global locations. Service projects in the community or on-site at select Fidelity sites will range from leading financial literacy workshops to sorting supplies for in-need students.

- The Daily Table
- The Food Project
- Thompson Island
- X-Cel Education

ABOUT FIDELITY CARES

Just as we help our customers every day make sound financial decisions with confidence, Fidelity uses a similar approach in giving back to make a difference in the communities where we work and live. Fidelity Cares® creates volunteer opportunities for our employees that use their insights and experience to help provide students in need with an educational foundation in order to feel more confident, make smart decisions and achieve personal and financial goals. We take a two-part approach in our efforts – delivering programs that support a quality, core education delivered in an environment that helps students thrive, and creating opportunities for students and their families to learn financial basics.
