Massachusetts Business Roundtable Statement on House Pay Equity Legislation

"Roundtable members have identified equity and diversity as essential elements of a healthy, productive and successful workplace," said JD Chesloff, Executive Director of the Massachusetts Business Roundtable. "The House legislation addressing pay equity strikes a careful balance between the workers it seeks to protect and the employers who would have to implement it. The Roundtable commends the House of Representatives, particularly Speaker Pro Tempore Patricia Haddad and House Leadership, Attorney General Healey, and our colleagues in the business community for thoughtfully addressing this important social and economic issue. We are pleased to support this bill."

The Massachusetts Business Roundtable is a non-profit, non-partisan public policy organization comprised of CEOs and senior executives from major employers that collectively employ more than 250,000 people across the state. The Roundtable works with business leaders and public officials to make Massachusetts a more competitive place to do business in the global economy.
